

North Dakota National Youth in Transition Database

NYTD SURVEY for YOUTH!

REMEMBER.... You took the NYTD Survey when you were 17!

What is NYTD? NYTD surveys are completed by select foster care youth nationwide. The data will help improve service delivery to ND foster care youth!

Who Completes the Survey? Every three years, North Dakota will ask 17 year old foster care youth if they would like to take the NYTD survey. Youth who choose to complete the first NYTD survey at age 17 will be asked again to take part 2 at **age 19 (NOW)** and survey part 3 at age 21.

Do I have to take the NYTD Survey? No! You decided to take the NYTD survey at age 17 and became part of ND NYTD Group. It would be super cool if you would fill us in on how you are doing today! If you decline to participate, ND cannot use your information in our data and that may affect our funding. Funding is used to support programs that help current and former foster youth, like you!

Benefits: The survey allows you to use your experience to make things better for future foster youth.

If you participated at age 17, you received a **\$10 gift card**. If you take the survey at age 19 you will receive a **\$20 gift card**. Then at age 21 when you complete the final survey, you will receive a **\$50 gift card** at age 21!! ☺

Confidentiality/How Information Is Used:

Survey data will be used to evaluate and improve programs in North Dakota, then shared with the federal government. Your name and personal information will not be released outside of ND NYTD.

Stay Connected

If you took the first survey at age 17, ND will maintain contact with you until you are age 21! Please contact CFS if your contact information changes (address, phone number, email). This is very important in order to locate you for the 19 and 21 year old surveys.

**The ND NYTD
Survey Group
is one way for
you to offer
input and
make change to
ND foster care!**
